Chicago Tribune SATURDAY EVENING AUGUST 24. offer designated. Let all prepare to attend THE "SCRIMMACE."

The little "scrimmage" in which two hundred and fifly men of Col. Dougherty's (33d Illinois) Regiment put to flight 600 to 700 of the rebels under Jeff. Thompson, at Charleston, on Monday night, is a refreshing incident in the dreary catalogue of battles and skirmsishes that the Union newspapers have latterly been obliged to chronicle. We have long been of the opinion that the Illinois boys, when once let loose on the secesiors, would make their mark, and this success of Col. Dougherty against a greatly superior force has During the week ending, August 17, the tetal receipts of Flour and Grain is this city amounted to 1,874,515 bushels,—showing an increase on the supply of the week receipts of short 550 000 bushels.

WAR MEETING.

LET EVERYBODY COME.

At life we have the names of the off-

salowed to return. An ambulance is to be sent to Springfield with a flag of truce to obtain Lyon's body, and McDonald may go in this company. They are to bring back atso Cavender, McDowell and Counnt. I find the same feeling here as in Rolls in regard to this messenger. He is quite generally tooked upon as a spy. He brought some intelligence in regard to our hospital patients in Springfield.

It is rewrited that the Cabinets of England and France are disposed to take this view of the matter. But they are too late to make It avail them anything. Congress at its recent session conferred on the President authority to abolish all the ports of entry in the revolted States, which he is about to do by public proclamation. The block-ade then becomes an exercise of police power to see that the act of Congress as proclaimed by the President is carried into or open to the commerce of the world such erts on its own coasts as it may choose to mate. England and France and all Burspean nations claim this right for themselves, and certainly the United States entitled to the same privilege. PORKIGN SYMPATHY.

It is sufficiently obvious that the sympathies of no European nation can be much aroused by the aspect of American affairs so long as we continue to treat the slave population of the South as property—property to be apprehended, imprisoned and restored to rebellions owners. We have cried out against England for refusing to show an interest in the cause which ing to show an interest in the cause which we have so much at heart, yet when we see the same coldness cropping out | France and Italy, and finding expression in St. Petersburg, it is well to ask our-selves whether there is not some substan-tial reason for so widespread an indiffer-ence. Says the Journal de St. Petersburg, commenting on President Lincoln's mes-

These and similar expressions of feeling in Europe are not hardly fair, when the cause of the war is reflected upon. That cause was and is slavery. If the North had been willing to let slavery have its own way, there would have been no war. Thus much should be acknowledged, and placed to the credit of the loyal State Thus much is acknowledged by the intel-ligent masses of England, who are nevertheless confounded by the fact that the war is so waged as to preserve the cause of the rebellion—as though it was a desirable and necessary thing in a Republican government. The mere circumstance that a part of a nation has rebelled against its government, is too common to attract fortign sympathy on the one side or the other, unless some principle is involved in which mankind have an active interest in the no interest in the question whether the own independent power, or whether the North shall continue to help hold them by virtue of an unimpaired Union. To us ry are everything. To other nations they are nothing. A feeble sympathy is aroused in our favor by the stubboraness with which we have resisted the spread of slavery into the new Territories, but the mulern them, provided the number of slaves remains the same. The people are ripe for it; old political backs will of course cry fown a Union movement, but the people, thank God, are opening their eyes at last to the issues before us, and the contag election, we doubt not, will be triumphant for the Union ticket, whatever that may be. Visit to Sigel—Condition of the Preaps After the Battle—The love Boys—Differences of Opinion —All Ready for Another Public.

Last evening I rode out to the eamy of the forces from Springfield, to carry dispatches to Gen. Sigel. He is not in command now, Major Surges being at the head of the troops. It seems that Sigel has received no commission yet either as Colonel or Brigadier General, and Mejor Sturges actually ranks him; so the latter les taken command. As I understand it, however, both are subject to Col. Wyman's orders, he being commander of this post. it, however, both are subject to Col. Wyman's orders, he being commander of this post.

The camp is on the Little Piney, about six miles south on the Springfield road. Major Surges is in the front and Sigel holds the rear. The batteries are planted at different points along the road, the camp covering a space two or three miles in length. I found Gen. Sigel lying on a cot in a small and poorly furnished tent, not so good as those occupied by our privates. he looked careworn, and, perhaps, gave the slightest evidence of chagrin at being superseded in command. It may have been all right, but it seemed to man—a civilian—that courtery would have led Starges, to give up his chain, as it was based upon a mere formanty. Sigel actually ranked him, but had not yet obtained the requisite documents. The truth of this was clear from the

The National Horse Fair at Ottawa. We have from a friend who passed a day recently at Ottawa, a glowing account of the preparations being made for the great National Horse Show, to be held at that city, on Sept. 3d, 4th, 6th and 6th, and of the smeouraging prospects of its success. The grounds are located on the bank of the Hilbeb 11. ..., about a mile west of the city; are ample in dimensions, substantially escolosed, well watered and sămirably aranged. Good, comfortable stalls for several hundred horses are already provided, and provision made for erecting as many mere as are needed. An excellent track has been prepared, half a mile in length. For nearly a quarter of a mile along the outside of the track; twilve tiers of seats have been erected, capable of seating ten thousand per sons, with a stand for the musicum in the centre, (of whom five hands have already signified their purpose to be present.), flanked at either end by monater esting establishments, to be presided over by picked men in that line. A handsome stand has also been erected for the judges, and a capacious gallery for newspaper reportars, with an admirably arranged cuisies and dining underneath for their purpose the standard procuring establishments, to the fair. A harge space it also allotted for the Fair. A harge space it also allotted for the erection of private catering establishments, of which, from the space already

There is a peculiar inducement at this par-ticular time, that must attract the owners of fine horses to this Fair. Col. Dickey, of Otta-wa, has just been authorized by the War De-partment to parchase 1,000 horses at that city for his cavalry regiment. As a day of the Fair is devoted to sale, Col. D. will not fail to avail himself of the advantages which such an as-semblage of fine horses must afford.

Weekly Review of Chicago Market. Tustinay Byanins, Angust 20, 1861.

FREIGHTS—Owing to heavy receipts of grain and a light supply of reesels, the rates of Freight during the week have riled considerably higher—clooking at an advance of 65 to per bu on grain to Buffalo. At the beginning of the week rates raised steadily at 65 50 kg for corn to Buffalo, and 15 1/15 for wheat, but tswards the middle of the week, duting to a bouyant market for grain in the East, and an anxiety on the part of shippers for vessels, pittes suddenly advanced on Saturday to 150 filling for wheat to Buffalo. Testesday there was a full feet of vessels in port, and freights doclined functional of the standard of the standa TURBAY BYREES, Angust 20, 1861.

e latest reports from Washing eent everything as quiet at Wash The fear of an immediate THE ARTPUL SIMON.

A dispatch in the Associate Press report his morning, saying that the attacks on the Administration in the New York journals, are thought to have been instigated y the secessionists, is one of Cameron's meet touches. The Administration has not been attacked. The distribus against the management of the War Department—that means Cameron—have been bitter, forcutent and well deserved; and if they

A story that Lee and Rosecraus had had an encounter in Western Virginia, and that Lee was routed, losing sixteen pieces of cannon and all his military stores, circulated on the street last evening, on the faith of a real or bogus dispate posted in the Tremont House, was gene ally believed. It is unquestionably false one of those canards recklessly invente and greedly believed in a time of high pulic excitement like the present. We canot too strongly urge upon our readers to observance of a proper degree of cantions record to baseless stories while n regard to baseless stories which thoughtless men put affort to hear them selves talk and to make others wonder.

Again we have the assurance from Washington that the loyal men of Ten-nessee are to be armed, and this time the assurance is accompanied with deeds. The men of Kentucky, and the Tennessee fugitives in that State, have now 13,000 stand of arms, and a comprehensive plan is said to be in progress for the complete fulfillment of the hopes of this brave but beleaguard people. Let it be done now, and thoroughly done, and what has been lost by delay may yet be recovered. Gen. Zollfcoffer, and other rebel emissaries, have doubtless made considerable headway in "harmonizing differences," (as they call 1;,) in this portion of Tempesses, though the sweeping assertions of a though the sweeping assertions of Memphis dispatch this morning a freshing as falsehoods. We seem to Parson Brownlow reproducing his Ka ville Whig as an organ of Jeff. Davis.

An unfounded report has obtained in the West, originating, we believe Green Bay Advects, to the effect New York Central Raffrond Com purchased the Fox River Improvement Can together with its steamers and barges, with iogether with its steamers and barges, with a view of operating it as a line of transporta-tion. We are authorized to deny that the New York Central Railroad has any interest, direct or indirect, in the Fox River Improve-ment, or that any such connection has been contemplated.

The N. Y. Foe of the 20th inst. has the fi lowing item of news, which we fear is it good to be true:

By the arrival of the schooner Hamilto Captain Wentworth, at this port from Sai Thomas, we learn that news we received it. Thomas, on the third of August, that is rebel privateer Sunster had been captured it one of our men-of-war, name not understood. This report was received by a steamer which had arrived at St. Thomas from Caracao.

It is stated that the Sunster had loss a me in Curscos, and being unable to find him, le for a gruine, to return in a few days. Meas time an American-man-of war came into por and by in wait for her. When the Samter more larged she fell fullo the hands of our frigate and was at last dates lying in the port with Union fing flying.
